## School Newsletter

Date 1/28/25

Here's your advice for the week:

Be Curious – Ask questions, explore new ideas, and never be afraid to learn something new.

By Reeley Runnells

My interview with Liliana

Today I interviewed Liliana, she is very cute and funny person. She is very sweet as well. I asked Liliana what her favorite part of the day and she said After school treats. Especially gypsy gelato. Also her favorite color is blue. She said her favorite animal is a cheetah. Liliana's favorite teacher is Aunty Mahina, or hina. Finally her favorite ice cream flavor is chocolate. It was a honor to interview her, to learn more about her. Also Liliana's in 1st grade.

## Fun Fact!

Your brain is constantly eating itself! This process is called phagocytosis, (fa·gow·sai·tow·suhs) where cells envelop and consume smaller cells or molecules to remove them from the system. Don't worry!

Phagocytosis isn't harmful, but actually helps preserve your grey matter. BY Max Jenkins

## Meet Aunty Shanon By Mokihana
